Gambler's Help Southern  
(03) 9575 5353  
[gamblershelpsouthern.org.au](http://gamblershelpsouthern.org.au)

Gambler's Help Southern provides a range of free, professional services throughout southern metropolitan Melbourne including therapeutic counselling, financial counselling and education services to professionals, community groups and gaming venues.

The Dax Centre is a not-for-profit organisation that relies on the generosity of the community to carry out its mission of promoting mental health through art. We aim to change community attitudes to mental illness by increasing empathy and understanding of mental illness, psychological trauma and the mind through art, thereby reducing stigma against mentally ill people. The Dax Centre holds an important history and clinical focus, but it is today visited by many people such as students for a diverse range of learning purposes, artists and those interested in art, community and special interest groups; all who seek to demystify mental illness and address the associated stigma that has historically underpinned individual and community perceptions of mentally ill and traumatised persons. For further information visit: <http://www.daxcentre.org>.
